load tests. Tires for the trucks core from the USSR, and 60 percent of the ignition and lighting equipment from Gzecheslovakia and Germany.

## The Hofherr-Schrantz Works, Budanest

7.

At the end of 1950 this plant employed 3,000 workers, of which 1,800 are skilled laborers. Nork is carried out in three shifts. Since autum 1950, the plant has been producing tractors for agriculture and army purposes. These tractors are of two types: (1) Type C.R. 30/35 runs on rubber tires, solid rubber for the front wheels, pneumatic tires for the rear wheels. The nonthly rate of production is 70 tractors. (2) Type Sz.L. 50/55 is a caterpillar-track type, 50 to 55 horsepower. The monthly production rate is 60 tractors. Both types run on a mixture of herosene and gasoline in the proportion of 1:2. Production is said to have increased 50 percent in December 1950.

## Rubber Products Factory, Budanest (Magyar Ruggyanta Arugyar)

This factory is located on Kerepasi Street, Budapest. As of January 1951, it employed approximately 1,500 workers. The factory produces tires and inner tubes for cars, trucks, tractors, bicycles, and motorcycles, and rubber idlers (Gummilaufrollen) for tanks. Raw materials are obtained from Britain and to a lesser extent from the USSR. The factory was nationalized in 1948 and is producing for the Russiaus.
